

Day 43 — TNPSC Group 2A Study Material

Part A – General Studies: Industrial Growth (with a Tamil Nadu Focus)

READING MATERIAL

Covers Tamil Nadu's industrial public sector undertakings (their names, full forms, and establishment years) and the state's MSME (Micro, Small & Medium Enterprises) landscape — both areas where real exam evidence is dense and TN-specific.

Q: Real exam: What do TANSI, TANCEM, TAMIN, and TANMAG stand for, and in what chronological order were they established?

A: TANSI = Tamil Nadu Small Industries Corporation Ltd. TANCEM = Tamil Nadu Cement Corporation Ltd. TAMIN = Tamil Nadu Minerals Ltd. TANMAG = Tamil Nadu Magnesite Ltd. Chronological order of establishment (earliest to latest): TANSI → TANCEM → TAMIN → TANMAG — confirmed by a real exam question.

Q: Real exam: Match these 4 Tamil Nadu State Public Sector Undertakings to their establishment years — Tamilnadu Industrial Investment Corporation (TIIC), Tamilnadu Civil Supplies Corporation, Tamilnadu Industrial Development Corporation (TIDCO), State Industries Promotion Corporation of Tamilnadu (SIPCOT).

A: TIIC: 1949 (the oldest of the four). TIDCO: 1965. SIPCOT: 1971. Tamilnadu Civil Supplies Corporation: 1972 — all four confirmed via a real exam's match-the-following question.

Q: Real exam: What is Kattupalli, and where is it located?

A: Kattupalli has been declared a small port of Tiruvallur district, located close to the Ennore major port — confirmed by a real exam question (distinguishing it from other similarly-named coastal locations offered as distractors).

Q: Real exam: Which statements about MSMEs (Micro, Small & Medium Enterprises) in Tamil Nadu are TRUE — TN ranks 3rd nationally in Udyam Registrations; 30% of the state's entrepreneurs are women; Coimbatore has the most MSMEs in the state?

A: The FIRST TWO are true: Tamil Nadu ranks THIRD in the country in Udyam Registrations, and 30% of the state's entrepreneurs are women. The claim that 'Coimbatore has the most number of MSMEs in the state' is FALSE — confirmed by a real exam question (the actual leading district for MSME numbers is different, though the exam doesn't require knowing which one — just that Coimbatore's claim is wrong).

MOCK TEST (WITH ANSWERS)

1. Arrange TANSI, TANCEM, TAMIN, and TANMAG in chronological order of establishment:

A. TANSI, TANCEM, TAMIN, TANMAG ✓

B. TANSI, TANMAG, TAMIN, TANCEM

C. TANCEM, TANSI, TAMIN, TANMAG

D. TANSI, TAMIN, TANCEM, TANMAG

Explanation: TANSI, TANCEM, TAMIN, TANMAG. [hard, question-bank-2026]

2. TANCEM stands for:

A. Tamil Nadu Cement Corporation Ltd. ✓

B. Tamil Nadu Civil Engineering & Materials Ltd.

C. Tamil Nadu Central Electricity Mission

D. Tamil Nadu Coal & Energy Mission

Explanation: Tamil Nadu Cement Corporation Ltd. [medium, authored]

3. Which Tamil Nadu Public Sector Undertaking was established earliest, in 1949?

A. TIDCO

B. SIPCOT

C. TIIC ✓

D. Tamilnadu Civil Supplies Corporation

Explanation: TIIC (Tamilnadu Industrial Investment Corporation), 1949. [hard, question-bank-2026]

4. SIPCOT (State Industries Promotion Corporation of Tamilnadu) was established in:

A. 1949

B. 1965

C. 1971 ✓

D. 1972

Explanation: 1971. [hard, question-bank-2026]

5. Kattupalli, declared a small port of Tiruvallur district, is located close to which major port?

A. Chennai

B. Ennore ✓

C. Tuticorin

D. Cuddalore

Explanation: Ennore. [medium, question-bank-2026]

6. Tamil Nadu ranks where in the country in terms of Udyam (MSME) Registrations?

A. First

B. Second

C. Third ✓

D. Fifth

Explanation: Third. [medium, question-bank-2025]

7. What percentage of Tamil Nadu's entrepreneurs are women, per a real exam fact?

A. 10%

B. 20%

C. 30% ✓

D. 50%

Explanation: 30%. [medium, question-bank-2025]

8. Real exam: Which of the following statements about MSMEs in Tamil Nadu is FALSE?

A. Tamil Nadu ranks third nationally in Udyam Registrations

B. 30% of the state's entrepreneurs are women

C. Coimbatore has the most number of MSMEs in the state ✓

D. Tamil Nadu has a significant MSME presence

Explanation: The Coimbatore claim is false. [hard, question-bank-2025]

Part B – Aptitude & Mental Ability: Logical Reasoning

READING MATERIAL

Logical Reasoning is 1 of 6 named Reasoning skills (Part B Unit II, 10 questions total for the whole unit). Real exam evidence shows TNPSC's 'logical reasoning' label covers a wide variety of puzzle types, not just classic syllogisms — expect position-counting, ranking-from-clues, and direction-sense questions under this same heading too.

Q: Method — syllogism (statements → which conclusions necessarily follow): Statements: 'Some pens are books. All books are rods.' Conclusions: I. All pens are rods. II. Some pens are rods. III. Some books are pens. IV. All rods are pens. Which conclusions follow?

A: Only II and III follow. 'Some pens are books' + 'All books are rods' guarantees that AT LEAST SOME pens are rods (II) and that some books are indeed pens (III, since 'some pens are books' can be reversed to 'some books are pens'). It does NOT guarantee ALL pens are rods (I — only the 'some' pens that are books are guaranteed to be rods) or that ALL rods are pens (IV — nothing says rods can't include non-pen things).

Q: Method — position-in-a-line counting: Richard is 15th from the front in a column of boys. There are three times as many boys behind him as in front. How many boys are between Richard and the 7th boy from the end?

A: In front of Richard: 14 boys. Behind him: $3 \times 14 = 42$ boys. Total boys = $14 + 1 + 42 = 57$. The 7th from the end is at position $57 - 7 + 1 = 51$ from the front. Richard is at position 15. Boys between them = $51 - 15 - 1 = 35$.

Q: Method — algebraic word problem framed as a 'logical' puzzle: 106 trees were planted; non-fruit-bearing trees were 2 more than thrice the fruit-bearing trees. How many fruit-bearing trees were planted?

A: Let fruit-bearing = x . Non-fruit-bearing = $3x + 2$. Total: $x + 3x + 2 = 106 \rightarrow 4x = 104 \rightarrow x = 26$.

Q: Method — ranking from multiple comparative clues: Given several statements comparing four people's scores (e.g., 'Rama scored more than Rani but less than Rathna...'), determine who scored highest.

A: Work through each comparative clue methodically, building a single ordered chain (e.g., Rathna > Rama > Ramya > Rani), rather than trying to hold all comparisons in your head at once — write the partial order down step by step as each clue is read.

Q: Method — meaningful word sequencing: Arrange in a logical sequence: Honey, Flower, Bee, Wax.

A: Flower → Bee → Honey → Wax. The logic: a bee visits a Flower, produces Honey, and the Honey-making process also yields Wax (beeswax) — order reflects the natural/causal sequence of the process, not alphabetical or arbitrary order.

Q: Method — direction sense: A person starts walking, turns left, then turns left again, and is now heading East. Which direction did they originally start in?

A: West. Two consecutive left turns reverse the original direction (left+left = 180° turn), so if they end up heading East, they must have started heading West.

MOCK TEST (WITH ANSWERS)

1. Statements: 'Some doctors are teachers. All teachers are readers.' Conclusions: I. Some doctors are readers. II. All doctors are readers. III. Some readers are teachers. Which follow?

A. Only I and III ✓

B. Only II

C. All three

D. None

Explanation: I and III follow the same logic as the worked example (some doctors are guaranteed readers via the teacher link; some readers are guaranteed teachers by reversing 'some'). II overreaches — not ALL doctors are teachers, so not all are guaranteed readers. [hard, authored]

2. In a column of boys, Meena is 10th from the front, and there are twice as many boys behind her as in front. How many boys are in the column in total?

A. 27

B. 28 ✓

C. 29

D. 30

Explanation: In front: 9. Behind: $2 \times 9 = 18$. Total = $9 + 1 + 18 = 28$. [medium, authored]

3. A farmer planted 84 saplings in total. The number of flowering saplings was 3 more than twice the number of non-flowering saplings. How many non-flowering saplings were planted?

A. 25

B. 27 ✓

C. 29

D. 31

Explanation: Let non-flowering= x . Flowering= $2x+3$. Total: $x+2x+3=84 \rightarrow 3x=81 \rightarrow x=27$. [medium, authored]

4. Arrange in a logical sequence: Seed, Tree, Fruit, Sapling.

A. Seed-Sapling-Tree-Fruit ✓

B. Seed-Tree-Sapling-Fruit

C. Sapling-Seed-Tree-Fruit

D. Seed-Fruit-Sapling-Tree

Explanation: A Seed grows into a Sapling, which matures into a Tree, which eventually bears Fruit. [easy, authored]

5. A person walks north, turns right, walks on, then turns right again. Which direction are they now facing?

A. North

B. South ✓

C. East

D. West

Explanation: Two consecutive right turns reverse the original direction: North $\rightarrow$ (right) East $\rightarrow$ (right) South. [medium, authored]

Part C – General English: Prose: "Hobby — Turns A Successful Career"

READING MATERIAL

A multi-part lesson illustrating how a childhood hobby can grow into a fulfilling career, told through (at least) two real-style profiles: Mani, a village-school boy whose love of storytelling becomes a writing hobby, and Ajay Kumar Garg, who turned to painting after becoming deaf in childhood and was later honoured by the President of India.

Q: Who is Mani, where did he study, and who first told him bedtime stories?

A: Mani is the central boy in this story, who studied at a VILLAGE SCHOOL. His GRANDFATHER told him bedtime stories, which is where his love of stories began.

Q: What did Mani gradually begin to enjoy, and what hobby did he go on to develop from it?

A: He gradually began to enjoy READING. From there, he developed WRITING as his hobby.

Q: What does Mani compare writing to, and what kind of world does he imagine through it?

A: He compares writing to 'painting voice' (a poetic description of expressing oneself through words rather than images). Through writing, he imagines a world with magic and talking birds.

Q: How does Mani entertain children, and what does writing help him do?

A: He entertains children with HIS STORIES. Writing helps him to IMAGINE AND CREATE.

Q: According to the text, when are hobbies typically pursued, and what do they help do for a person?

A: Hobbies are pursued in one's FREE TIME, and they help ENERGISE the body and mind.

Q: Who is Ajay Kumar Garg, and how did his artistic talent come to be discovered?

A: Ajay became permanently deaf after an injury at age three. After his parents' attempts at medical treatment failed, his father bought him a paint set as a toy — which revealed Ajay's natural talent for painting, since he began painting happily on walls and floors.

Q: Who formally trained Ajay, what artistic style did he master, and what recognition did he receive?

A: A court artist, Shri Sua Lal, began training him formally from age five; he later learned the old, dying technique of Traditional Indian Miniature Painting from artist Asha Devi. He displayed 150 paintings, gained popularity across India, the USA, and the UK, and was honoured by Indian President Dr. A.P.J. Abdul Kalam with a national award of accomplishment.

MOCK TEST (WITH ANSWERS)

1. What is the name of the village-school boy in the story whose hobby is writing?

- A. Raju
- B. Siva
- C. Mani ✓**
- D. Ram

Explanation: Mani. [easy, web-research]

2. Who helped Mani develop his love for stories through bedtime storytelling?

- A. His father
- B. His teacher
- C. His grandfather ✓**
- D. His uncle

Explanation: His grandfather. [medium, web-research]

3. What did Mani gradually begin to enjoy, which led him toward his hobby?

- A. Drawing
- B. Reading ✓**
- C. Singing
- D. Cooking

Explanation: Reading. [medium, web-research]

4. What hobby did Mani ultimately develop?

- A. Swimming
- B. Writing ✓**

- C. Painting
- D. Gardening

Explanation: Writing. [easy, web-research]

5. Mani compares the act of writing to:

- A. Drawing pictures
- B. Painting voice ✓**
- C. Cooking food
- D. Building houses

Explanation: Painting voice. [hard, web-research]

6. What kind of world does Mani imagine through his writing?

- A. A realistic world
- B. A world with magic and talking birds ✓**
- C. A silent world
- D. A scientific world

Explanation: A world with magic and talking birds. [medium, web-research]

7. According to the text, hobbies are typically pursued during:

- A. Exams
- B. Free time ✓**
- C. School time
- D. Festivals

Explanation: Free time. [easy, web-research]

8. Ajay Kumar Garg, the second profile in this lesson, became permanently deaf after an injury at what age?

- A. One
- B. Three ✓**
- C. Five
- D. Seven

Explanation: Three. [medium, web-research]

9. How was Ajay's artistic talent first discovered?

- A. A teacher noticed his sketches
- B. His father bought him a paint set as a toy ✓**
- C. He won a school competition
- D. A neighbour taught him

Explanation: His father bought him a paint set as a toy. [medium, web-research]

10. Which Indian President honoured Ajay Kumar Garg with a national award of accomplishment?

- A. Dr. A.P.J. Abdul Kalam ✓**
- B. Pratibha Patil
- C. R. Venkataraman
- D. K.R. Narayanan

Explanation: Dr. A.P.J. Abdul Kalam. [medium, web-research]
